Tire Bead Wire Remover

Our Tire Bead Wire Remover (Bead Eater) is a rugged American-made machine for removing wire from medium truck tires. The Bead Eater is designed for low power consumption, high capacity and minimal maintenance. The machine removes wire from scrap tires before shredding saving on overall processing costs and generating recyclable steel feedstock for metal recycling. The Bead Eater consists of a motor, hydraulic operating system, drawing hook, safety barrier and easy to operate control pad. We will manufacture a build-to-order power consumption source to meet your requirements.

Benefits

- Faster processing time from whole tire to shredded product
- Reduced maintenance expense by lessening wear on shredding blades
- Significantly higher rubber yield
- Lower power consumption
- Consistently cleaner wire
- Replaceable face plate and hook

Specifications

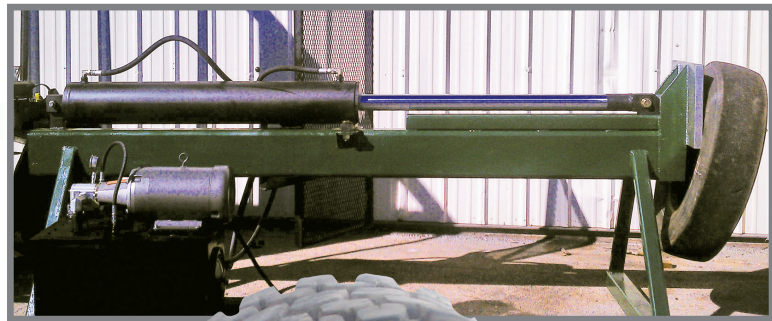

- Electronic controls (on/off)
- Hydraulic control levers
- Hydraulic tire holder
- 800–1400 PSI
- 30 second cycle time
- 240V or 480V electrical power source

Speed

- Accommodates between 40-50 tires an hour

Warranty

- 6 month limited warranty on parts.
