## GroundRubber Slide Mat

The GroundRubber Slide Mat is designed to be installed at the base of playground slide exits and under swing sets providing protection where a fall to surface may occur. The rubber molder mats are sized for optimum use at 36" x 36" x 3" in depth and have been safety tested to a fall height of five feet. The versatile slide and swing mat is the best way to prevent ruts under your children's swings sets and slides.

### Benefits

- Shock absorption
- Stays in place once installed
